**MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

**A. INDUSTRY STRUCTURE AND DEVELOPMENT.**

Your Company's current product basket includes Phthalocyanine Blue range of products like CPC Blue, Pigment Alpha Blues and Pigment Beta Blue. All these products are having wide applications for various industrial purposes with good export demands. The products are being widely used in paints, textiles, inks, plastics, rubber and other industries and shown strong demand for the products of the Company during last couple of years. However, the last financial year was challenging due to significant increase in the input cost besides rise in gas and coal prices, curtailment in the consumption, rising interest rates and inflationary pressures which has impacted the margins for the products of the Company and also reduced the turnover of the Company. Due to various international factors including high inflation, increasing interest rates, Russia Ukraine war and other factors the demand for the products of the Company remained subdued during the financial year end and also in the beginning of the current year.

The Company is working out plans to expand its market and its customer base as well as to introduce new grades of products to increase turnover and profitability. Also the Company has undertaken new project with significant amount of capital expenditure with an aim to diversify into bulk chemical intermediates so as to enhance its product range and increase in revenues and margins. The management expects to commence the operations of its new project by end of 2025.

The present situation of the industry in which your Company operates provide various challenging situation arising due to outbreak of Russia Ukraine war and high inflations besides skyrocketed commodity, gas and coal prices, global increasing interest rates, curtailment of industrial and consumer demands in developed nations, anticipated slowdown in Chinese economy and also anti-dumping duty by China. The business operations for the Company are likely to remain volatile and dynamic due to various constraints and recessionary trend during 2024-25. Also the new capacities coming up in India are likely to provide very competitive environment for the operations of the Company. However, systematic and proactive efforts of the management of your Company besides establishment of the new project will support the operations favorably with a minimum disruption. In spite of various challenges and effect of the inflations the operations of your Company has shown satisfactory performance for the year ended.

#### **B. OPPORTUNITIES, THREATS, RISK AND CONCERNS.**

Your Company has gained its position in the domestic as well as international markets due to its quality products and continuous improvements which in turn has helped us to develop and maintain long term relationship with the clients and further supported us to spot for the new opportunities. This systematic approach has delivered favorable results for the Company to grow at the steady rate by creating sustainable demand from satisfied customer base and repetitive orders from them and in turn increased profitability.

Besides that, going forward, your Company also considers challenges and threats mainly on account of fluctuation in the prices of various raw materials which are linked to world Petro products and commodity prices, foreign exchange fluctuations, environmental regulations, and general global demand situation. Availability of skilled manpower and contract work force would be another set of challenges to be managed carefully for the growth of the Company.

The broader trends in the economy are expected to have a direct impact on your Company's growth prospects as well. Inflation is expected to remain elevated for the foreseeable future, driven by war-induced commodity price volatility and overall margin and price pressures. In addition, the high rate on interest cycle at the global level by various Central Banks is likely to continue for next year also and will anticipate lowering the growth and create pressure on economies particularly those in emerging markets.

In these circumstances, the ability to successfully navigate cost pressures would have a significant bearing on the overall performance of your Company. Diminishing demand due to the economic circumstances could result in fundamental shifts in consumer behaviors and adversely impact the market for chemicals. Migration to value-for-money options could also lead to reduced growth and profitability for your Company.

A well-defined structure has been laid down to assess, monitor and mitigate risk associated with these areas on a continuous basis.

#### **C. OUTLOOKS FOR 2025-26.**

The current year is likely to remain very challenging and the management of the Company is putting all efforts to protect and increase the demand for the products of the Company. Also, various cost control measures at all level of operations have been designed and implemented. During the past couple of years, the Company had incurred significant amount of capital expenditure on modernization of plant and factory building which will result in overall efficiency improvement, cost savings, increased tonnage of production. All these factors will drive the growth during coming years for the benefits of the Company.

The year is likely to remain volatile for the business of the Company and the efforts of the management would be to protect the demand and enhance revenue with the aim of minimizing loss and post profits. Also barring unforeseen circumstances, the management estimates of commencing its new plant for chemical intermediates by end of FY 2024-25.

#### **D. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY.**

We have a strong integrated internal control system which is deemed to be adequate considering the nature and scale of our class of business.

### **Management's and the Board of Director's Responsibility for the Standalone Ind AS Financial Statements**

The Company's Board of Directors are responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone Ind AS Financial Statements that give a true and fair view of the state of affairs, profit and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Ind AS financial statements, the Management and the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternate but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit concluded in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143 (3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Standalone Ind AS financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management and the Board of Directors.
- Conclude on the appropriateness of Management and the Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report.  
However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Ind AS financial statements, including the disclosures, and whether the Standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Ind AS financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

## **MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

## **AUDITORS' RESPONSIBILITY**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

## **INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future

periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**B SUMMARY OF BASIS OF COMPLIANCE, BASIS OF PREPARATION AND PRESENTATION, CRITICAL ACCOUNTING ESTIMATES, ASSUMPTIONS AND JUDGMENTS AND SIGNIFICANT ACCOUNTING POLICIES:**

**B.1 BASIS OF COMPLIANCE**

The Financial Statements of the Company have been prepared to comply with the Indian Accounting standards ('Ind AS'), including the rules notified under the relevant provisions of the Companies Act, 2013, (as amended from time to time) and Presentation and disclosure requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS Compliant Schedule III) as amended from time to time.

**B.2 BASIS OF PREPARATION AND PRESENTATION**

The financial statements have been prepared under the historical cost convention using the accrual method of accounting basis, except for certain financial instruments that are measured at fair values at the end of each reporting period as explained in the significant accounting policies below.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the 2013 Act.

**B.3 CRITICAL ACCOUNTING ESTIMATES, ASSUMPTIONS AND JUDGMENTS**

The preparation of the financial statements requires management to make estimates, assumptions and judgments that affect the reported balances of assets and liabilities and disclosures as at the date of the financial statements and the reported amounts of income and expense for the periods presented.

The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates considering different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Impact on account of revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying values of assets and liabilities within the next financial year are discussed below.

**C.1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**(a) Property, plant and equipment (PPE IND AS 16)**

These tangible assets are held for use in production, supply of goods or services or for administrative purposes. Property, Plant and Equipment are stated at cost net of recoverable taxes, trade discount and rebates less accumulated depreciation and accumulated impairment losses except for freehold land which is not depreciated. Cost includes purchase price after deducting trade discount/rebate, import duties, non-refundable taxes, Net of Cenvat and VAT credit/GST input credit wherever applicable, cost of replacing the component parts, borrowing costs and other directly attributable cost of bringing the asset to its working condition in the manner intended by the management.

If significant parts of an item of PPE have different useful lives, then they are accounted for as separate items (major components) of PPE.

The cost of an item of PPE is recognised as an asset if, and only if, it is probable that the economic benefits associated with the item will flow to the Company in future periods and the cost of the item can be measured reliably. Expenditure incurred after the PPE have been put into operations, such as repairs and maintenance expenses are charged to the Statement of Profit and Loss during the period in which they are incurred.

Items such as spare parts, standby equipment and servicing equipment are recognised as PPE when it is held for use in the production or supply of goods or services, or for administrative purpose, and are expected to be used for more than one year. Otherwise such items are classified as inventory.

The Company adjusts exchange differences arising on translation difference/settlement of long term foreign currency monetary items outstanding and pertaining to the acquisition of a depreciable asset to the cost of asset and depreciates the same over the remaining life of the asset. The depreciation on such foreign exchange difference is recognised from first day of its financial year.

**De-recognised upon disposal**

An item of PPE is derecognised on disposal or when no future economic benefits are expected from use or disposal. Any gain or loss arising on derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in Statement of Profit and Loss when asset is derecognised.

**Treatment of Expenditure during Construction Period**

Expenditure, net of income earned, during construction (including financing cost related to borrowed funds for construction or acquisition of qualifying PPE) period is included under capital work-in-progress, and the same is allocated to the respective PPE on the completion of construction. Advances given towards acquisition or construction of PPE outstanding at each reporting date are disclosed as Capital Advances under "Other Non-Current Assets".

**Depreciation**

The depreciable amount of an asset is determined after deducting its residual value. Where the residual value of an asset increases to an amount equal to or greater than the asset's carrying amount, no depreciation charge is recognized till the asset's residual value decreases below the asset's carrying amount. Depreciation of an asset begins when it is available for use, i.e., when it is in the location and condition necessary for it to be capable of operating in the intended manner. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale in accordance with IND AS 105

and the date that the asset is derecognised.

The Company depreciates its property, plant and equipment (PPE) over the useful life in the manner prescribed in Schedule II to the Act. Management believes that useful life of assets are same as those prescribed in Schedule II to the Act, except for plant and equipment wherein based on technical evaluation, useful life has been estimated to be different from that prescribed in Schedule II of the Act.

The identified component of fixed assets are depreciated over the useful lives and the remaining components are depreciated over the life of the principal assets.

Depreciation on fixed assets added/disposed off during the period is provided on pro-rata basis with reference to the date of addition/disposal.

**(b) Investments**

**Note 1 : NOTES FORMING PART OF THE ACCOUNTS FOR THE YEAR ENDED 31st MARCH, 2025**

**SIGNIFICANT ACCOUNTING POLICIES AND NOTES ON ACCOUNTS**

The Company reviews its carrying value of investments carried at amortised cost annually, or more frequently when there is an indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

**(c) Borrowing cost (IND AS 23)**

Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

All other borrowing costs are charged to the Statement of Profit and Loss for the period for which they are incurred.

**SIGNIFICANT ACCOUNTING POLICIES AND NOTES ON ACCOUNTS**

**(d) Inventories (IND AS 2)**

The inventory is valued as follows:

(i) Raw Materials	At Cost First in First out.
(ii) Stores and Spare parts	At Cost First in First out.
(iii) Finished Goods	Valued at lower of cost or Net Realisable Value
(iv) Work in Process	At cost by using absorption cost method.

As per normal practices the cost of finished goods includes all direct cost and normal fixed overheads. However, it does not include selling and distribution cost. Value of stock of finished goods at the date of Balance Sheet includes duties and taxes if any applicable.

**(e) Impairment loss (IND AS 36)**

At the end of each reporting period, the Company reviews the carrying amounts of its PPE and other intangible assets to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit (CGU) to which the asset belongs. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. The resulting impairment loss is recognised in the Statement of Profit and Loss. Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

Where an impairment loss subsequently reverses, the carrying amount of the asset or CGU is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset or CGU in prior years. A reversal of an impairment loss is recognised in the Statement of Profit and Loss.

**(f) Employee benefits (IND AS 19)**

**Short term employee benefits**

The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees are recognised as an expense during the period when the employees render the services.

**Post employment benefits**

**1) Defined Benefit Plan**

**GRATUITY**

The Trustees of Ishan Dyes and Chemicals Limited Employees' Gratuity Fund has a fund arrangement (cash accumulation policy) with Life Insurance Corporation of India (LIC) to administer its gratuity benefit scheme. The contributions towards the said funds which are as determined by LIC are charged to revenue each year. Company ascertains the Liability towards Gratuity at the year-end and provision for the differential amount between the liability determined on Actuarial Valuation and Fund balance is provided in the books of account.

**2) Defined Contribution Plans**

**PROVIDENT FUND**

The Company recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognised as a liability. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognised as an asset to the extent that the pre-payment will lead to a reduction in future payment or a cash refund.

**(g) Cash and cash equivalents (IND AS 7)**

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

**(h) Foreign currency translation**

The functional currency of Ishan Dyes and Chemical Limited (i.e. the currency of the primary economic environment in which the Company operates) is Indian Rupee.

On initial recognition, all foreign currency transactions are translated into the functional currency using the exchange rates prevailing on the date of the transaction. As at the reporting date, foreign currency monetary assets and liabilities are translated at the exchange rate prevailing on the Balance Sheet date and the exchange gains or losses are recognised in the Statement of Profit and Loss.

**(i) Revenue recognition (IND AS 115)**

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration entitled in exchange for those goods or services. The Company is generally the principal as it typically controls the goods or services before transferring them to the customer. Generally, control is transferred upon shipment of goods to the customer or when the goods is made available to the customer, provided transfer of title to the customer occurs and the Company has not retained any significant risks of ownership or future obligations with respect to the goods shipped.

Revenue from rendering of services is recognised over time by measuring the progress towards complete satisfaction of performance obligations at the reporting period.

**Contract Balances**

**Trade Receivables**

A receivable represents the Company's right to an amount of consideration that is unconditional.

**Contract Liabilities**

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration or is due from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the interest rate applicable.

Dividend income is recognised when the Company's right to receive the payment has been established.

**Note 1 : NOTES FORMING PART OF THE ACCOUNTS FOR THE YEAR ENDED 31st MARCH, 2025**

**SIGNIFICANT ACCOUNTING POLICIES AND NOTES ON ACCOUNTS**

**(j) Provision, contingent liabilities and contingent assets (IND AS 37)**

Provision is recognised in the accounts when there is a present obligation as a result of past event(s) and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed unless the possibility of outflow of resources is remote.

Contingent assets are neither recognised nor disclosed in the financial statements.

## SIGNIFICANT ACCOUNTING POLICIES AND NOTES ON ACCOUNTS

### (k) Taxes (IND AS 12)

The tax expense for the period comprises current and deferred tax. Tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in the comprehensive income or in equity. In which case, the tax is also recognised in other comprehensive income or equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that are enacted or substantively enacted at the Balance sheet date.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The carrying amount of Deferred tax liabilities and assets are reviewed at the end of each reporting period.

### (l) Financial instruments (IND AS 109)

#### i) Financial Assets

##### A. Initial recognition and measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

##### B. Subsequent measurement

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

##### a) Financial assets carried at amortised cost (AC)

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

##### b) Financial assets at fair value through other comprehensive income (FVTOCI)

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income ('FVTOCI'). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains or losses which are recognised in Statement of Profit and Loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised as gains/ (losses) within other income or other expense. Interest income from these financial assets is included in other income using the effective interest rate method.

##### c) Financial assets at fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for amortised cost or FVTOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at FVTPL and is not part of a hedging relationship is recognised in profit or loss and presented net in the Statement of Profit and Loss as gains/(losses) within other income or other expense in the period in which it arises. Interest income from these financial assets is included in other income.

##### C. Investment in equity instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to the Statement of Profit and Loss. Dividends from such investments are recognised in the Statement of Profit and Loss as other income when the Company's right to receive payments is established. Changes in the fair value of financial assets at FVTPL are recognised as gains/(losses) within other income or other expense in the Statement of Profit and Loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVTOCI are not reported separately from other changes in fair value.

#### ii) Financial liabilities

##### A. Initial recognition and measurement

The Company's financial liabilities comprise borrowings, trade payables and other liabilities. These are initially measured at fair value, net of transaction costs.

##### B. Subsequent measurement

Subsequently measured at amortised cost using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

### (m) Cash Dividend to Equity Holders of the Company:

The Company recognises a liability to make cash distributions to equity holders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

**SIGNIFICANT ACCOUNTING POLICIES AND NOTES ON ACCOUNTS**

**(n) Fair Value Measurement (IND AS 113)**

The Company measures financial instruments, such as investments (other than equity investments in Subsidiaries, Joint Ventures and Associates) and derivatives at fair values at each Balance Sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

**(o) Events occurring after the balance sheet date (IND AS 10)**

Assets and liabilities are adjusted for events occurring after the reporting period that provides additional evidence to assist the estimation of amounts relating to conditions existing at the end of the reporting period.

Dividends declared by the Company after the reporting period are not recognized as liability at the end of the reporting period. Dividends declared after the reporting period but before the issue of financial statements are not recognized as liability since no obligation exists at that time. Such dividends are disclosed in the notes to the financial statements.

**(p) Intangible Assets**

Intangible Assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation. Amortisation is recognised on straight line basis over their estimated useful lives of 5 years, which reflects the pattern in which the asset's economic benefits are consumed. The estimated useful life, amortisation method and the amortisation period are reviewed at the end of each reporting period, with effect of any change in estimate being accounted for on a prospective basis.

An intangible asset is derecognised on disposal or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the assets, and are recognised in the profit and loss account when the asset is derecognised.

**(q) Earning Per Share (EPS)**

The Company reports basic and diluted earning per share in accordance with Ind AS 33 on Earning per share. Basic earning per share is computed by dividing the net profit or loss for the period by the weighted average number of equity share outstanding during the period. Diluted earning per share is computed by dividing the net profit or loss by the weighted average number of equity shares during the period as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

**(r) Standards Issued but not Effective**

Ministry of Corporate Affairs ('MCA') notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2025, MCA has notified Ind AS - 117 Insurance Contracts and amendments to Ind AS 116 - Leases, relating to sale and leaseback transactions, applicable to the Company w.e.f. April 1, 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact in its Standalone Financial Statements.

**Notes:**

The Company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

In assessing the realisability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realised. The ultimate realisation of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Company will realise the benefits of those deductible differences. The amount of the deferred income tax assets considered realisable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

**Note- Reason for differences:**

Note 1: The differences in the trade receivables is due to non inclusion of Undisputed Trade Receivables - which have significant increase in credit risk, in the stock statements submitted to the bank.

Note 2: The differences in the trade payables is due to receipt and bookings of certain purchase/expense invoices after submission of the stock statement.

Note 3: With respect to inventory, the management submits stock statements to the bank on the basis of estimated valuation as a routine practice.

Subsequent to the submission to the bank, the actual valuation of the inventory has been worked out along with the physical verification by the management hence it reflects minor variation between the books of accounts and stock statements submitted to the bank.

**Note - 47 FINANCIAL INSTRUMENTS - FAIR VALUES & RISK MANAGEMENT****Accounting Classifications & Fair Value Measurements**

The fair values of the financial assets and liabilities are measured at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

All financial instruments are initially recognized and subsequently re-measured at fair value as described below:

1. The fair value of investment in quoted equity shares and mutual funds is measure date quoted price or NAV.
2. Fair values of cash and short term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to short-term maturities of these instruments.
3. Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on the evaluation, allowances are taken to account for the expected losses of these receivables.
4. The fair value of forward foreign exchange contracts and currency swaps is determined using forward exchange rates and yield curves at the balance sheet date.

The company uses the following hierarchy for determining and disclosing the fair values of financial instruments by valuation technique.

Level 1 : Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 : Inputs other than the quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3 : Inputs based on unobservable market data
